COACH JOKES: Remember, if you forget the rules of chess, don't worry! You're allowed to check!! 😊

TACTICAL TIPS + TRICKS: General Tips 1: When you think of a move, wait! Look for a better one!

Hi everyone. Yep, the above classic chess advice is perhaps even more relevant today. While rushing can sometimes be unavoidable (say you are playing with a clock and you are running very low on time, you would need to rush then), but otherwise, it's always a good idea to slow down over your moves. Remember, the more time you spend thinking, the less chance there is of making a mistake! And this goes for everyone, even the world champion! When you first think of a move to play, don't automatically play it. Check it out first. Is there a better move? If there isn't, go with the first move. But if there is, you'll be even gladder you spent time to find that second move! Also remember, you do want to stop your opponent's threats first!!

PESKY PUZZLES: In each position find the best move/moves.
White to move = W Black to move = B
