FORMAT

Each tournament is run as an individual event. The winning school is determined by adding the 4 highest scorers from each school. This means that your school can enter any number up to 15 players, and there is no need to rank them by ability, or assign teams.

Each tournament is a 7-round 'Swiss' competition. This means that all players play 7 games and no-one is 'knocked out' of the tournament.

Players must not receive any external assistance from any other person, or chess engine during the games. Once a game has started, players must stay on the same browser and not switch windows or tabs, or have access to any other electronic devices, apart from the computer that they are using to play the games.

Anyone found using external assistance will be banned from the remainder of the tournament and have all of their points deducted.

TIME LIMIT

Online chess clocks will be used in this event.

The time limit is 15 minutes per player per game.
